**November 20/21, 2021**

**This was PASA's fifth and last agility trial in 2021. COVID is still with us. However, vaccinated people did not have to wear masks outside except for walkthroughs.**

**The trial was held at Thorson's Arena near Morgan Hill, CA. It is one of our favorite places because of being covered, with lots of room and near the Bay Area. PASA also held two obedience trials on Saturday and two rally trials on Sunday. The weather was perfect with some fog in the morning and the sun by mid-morning.**

**PASA held the usual one ring event, with 5 classes each day. Jeff Hayes from East Bernard, Texas was our judge. His courses gave us some challenges, especially his gamblers.**

**August 7/8, 2021**

**This was PASA's fourth trial in 2021. The state of California officially opened up June 15. So, there were no rules from on high about COVID behavior. We still requested that non-vaccinated people wear masks.**

**The trial was held at Manzanita Park in Prunedale. The park overlooks Moss Landing and the weather was true to form. While most of the area was in the 80s, into the hundreds, we started the day cool and foggy with drizzle. The sun came out late morning and, just when you are getting warmed up, the breeze came in. By dinner the fog is overhead. We ended the runs soon enough to hold the NQ raffle at the end of the trial day and have a great pot luck dinner. There was so much food at the pot luck that we fed everyone for lunch the next day.**

**high about COVID behavior. We still requested that non-vaccinated people wear masks.**

**It was also the third official agility trial held at Rick Anderson's "Farm" in Livermore. The heat and wind turned out to not be much of a problem. It was actually on the cool side for Livermore and the breeze was refreshing. The trial was on the small size, so we ended up soon enough to hold the NQ raffle at the end of the trial and an early BBQ for dinner for all. We stuffed ourselves with chicken, burgers and veggie burgers, great salads, root beer floats and a Birthday Cake for the judge.**

**May 1/2, 2021**

**This was PASA's second trial in 2021. Given the rate of vaccinations and more opening up, we decided that it was OK to reinstate free workers lunch and morning hospitality for all. So PASA was back to proving that it had the best agility trial food offerings in the Bay area.**

**It was also the second official agility trial held at Rick Anderson's "Farm" in Livermore. Rick had spent a lot of time reducing the possibility of foxtails. Green grass, views of green hills and nice weather. Everything was great until a dust devil hit the crating area and destroyed 7**

**canopies in a matter of seconds and then  
it was gone.**

## **March 27/28**

**This was PASA's first trial in 13 months, thanks to COVID-19, We were pretty careful - No hospitality, no NQ raffle, social distancing, masks, no sharing of canopy space except for household members etc. Everyone felt pretty comfortable, especially since a rather large percentage of attendees have been vaccinated already. The county now allows vaccinated people to gather with each other, so there was a little bit of that happening.**

**It was also the first official trial held at Rick Anderson's "Farm" in Livermore. Green grass, views of green hills and nice**

**weather. One could not ask for anything better.**

**PASA held the usual one ring event, with 5 classes each day. Sue Graham from Paso Robles, CA was our judge. She actually drove here and stayed on site. Her courses had some interesting twists. Some of us called the Sunday jumpers a Mickey Mouse head.**

# **Fun Matches**

**PASA decided to have a couple of member only Fun Matches to tune the new facility and get our dogs used to a trial environment again. They were both one day events. Beautiful sunshine both days. The March match was a bit on cool side. Some wind both days. Scott Lovelis designed the courses and served as a judge at the February event. Susan Laursen acted as equipment czar. Tracy Lovelis gave the briefings and announcements. We had volunteers for gate, leash running and pole setting, just like a regular trial. Rick Anderson did all the grounds planning and implementation. He also did some judging. Jean Danver wrote a flier and a release. The dogs had a great time running and meeting new and old friends.**
